Preprint shipping requirements & delivery specifications

Packaging & Shipping

When supplements are incorrectly folded, packed or stacked or are mutilated in transit, our mechanical inserting equipment will not function properly. Some copies of the newspaper may be delivered with multiple inserts, some with none at all. At the advertiser's option, we will initiate intensified control measures to try to prevent misses or doubles on poor quality supplements. The advertiser may be billed any additional labor expenses incurred. Further, if the section is of such poor quality that circulation requirements may not be met, we reserve the right to drop the section from insertion. This action may have to be taken at any point along our production schedule. Please see that your printer and your shipper both receive this information.

- Inserts must be shipped freight prepaid on skids not over 5 feet high.
- Envelopes and cards must be in boxes.
- Binders must be put between each layer on skid.
- Heavy cardboard or wood should be put on top of skid before binding.
- Do not tie individual stacks or bundles.
- Pallets must be protected with plastic/shrink wrap.
- Heavy cardboard should be used to cover the entire skid before the first row is stacked, preprints should not protrude over the edges of the skid.
- Pallet banding should be tight without bending top turn or pulling flooring loose.
- The formula for each turn or batch of bundle is as follows:

2	pages (Std. or Tab) =	500-to a turn
4	pages (Std. or Tab) =	400-to a turn
8	pages (Std. or Tab) =	300-to a turn
10	pages (Std. or Tab) =	300-to a turn
16	pages (Std. or Tab) =	200-to a turn
24	pages (Std. or Tab) =	150-to a turn
48	pages (Std. or Tab) =	75-to a turn
56	pages (Std. or Tab) =	50-to a turn

Identification

Individual pallets must carry a corner tag visible from two sides of the pallet.

The pallet tag must contain the following information:

- Name of newspaper.
- Supplement name.
- Publication date of insert.
- Total number of supplement shipped.
- Number of copies on the pallet.
- Total number of pallets in the shipment.
- Individual pallet number i.e. "1 of 10" etc.
- Total pallet weight.
- Pallet tare weight.
- Number of copies in each lift.
- Name of printer and phone number.
- Multiple versions of the same product require A,B,C,D etc. identifications on front page of each preprint.

Bill of Lading

The Bill of Lading must include the following information:

- Total print order
- Number of inserts per pallet
- Total number of pallets
- Name of publication
- Name of the insert
- Publication Date

** Note: Federal Express and UPS have none of the above and should be included on or inside the boxes.

Printing Requirements

- A. Newsprint section - Use stock 30# or heavier. Pages size - 8 pages tab or 4 page standard minimum. Dimensions - Fold edge minimum 7 1/2" to maximum 12". Cut edge 5" minimum to 10-3/4" maximum.
- B. Cards, free standing stuffers, single sheet w/flap or 4 page tab minimum .007 thickness. Dimension - 5" x 7 1/2" up to 10-3/4" x 12".
- C. Mailer envelopes (glue seal only) Dimensions - Short seal 4-1/2" wide x 6-1/4" long. Seal - 6" wide x 7-1/4" long.
- D. Stitched sections only on fold or backbone and limited to 24 or more pages. Recommended NO STAPLES.
- E. Cards, coupon, envelopes, etc., are not to be attached to the outside pages of any supplement.

Exceptions to any of the above will be handled on an individual basis and will be accepted upon completion of satisfactory testing. Half tabloid or "Flexi" pages. 7" x 10" (or smaller), 5" x 7" (minimum size accepted). Minimum of 8 pages on flexies. Preprints should not be individually wrapped in plastic or collated pieces in plastic; these will not run through the insert machines. These inserts, along with food samples and unused pieces can be delivered as a separate piece.

Inserts not adhering to deadlines and specification will not be accepted.

For any further questions, please call our Preprint Coordinator at 973-392-1847.

Delivery
